Agri-business firms sell products and services to help farmers maximize crop yields and livestock production. If you have an interest in agronomy, you may provide services such as crop scouting, soil sampling, and precision ag services. You may make nutrient recommendations for crops, sell farmers fertilizer and crop protection products, or advise farmers on seed purchasing decisions.

If you are interested in working in equipment dealerships, you may sell farm equipment or service it for repairs and maintenance. If you have an interest in livestock, you may sell feed, livestock supplies, or equipment.

Each year there are at least five jobs available per graduate in the agri-business field. These opportunities are expected to continue.
