Willmar Campus

## About the Program

The Farm Operation and Management program includes courses in all phases of technical agriculture with special emphasis on farm management. You choose from four specializations:

- Farm Management
- Crop Science
- Animal Science
- Dairy Science

You will attend classes for about six weeks and then begin applying what you're learning during a four-week internship during the height of fall field work. When you return to classes, you follow the regular schedule until April when you have a spring internship.

Farming is a highly technical profession today. Gain expertise in:

- Farm financial management
- Crop production practices
- Commodity marketing
- Precision farming technology

## Program Distinctions

- 4 internship experiences on your farm or other farms
- Hands-on training on school farm and in labs and shops
- Largest Minnesota two-year agriculture program
- 2017 nationally recognized Outstanding Postsecondary/Adult Agriculture Education program
- Excellent academic support
- 11 full-time faculty with strong industry experience
- Connections with other students and industry reps through Professional Agriculture Students (PAS) club and Rodeo Club

You also customize your education. Choose from several elective topics:

- Beef and swine management
- Dairy management
- Machine maintenance and repair
- Integrated pest management
- Plant food and crop protection recommendations and application technology

## Career Info

Many students return to their home farms after graduating, but in recent years, we received nearly 100 openings for farm employment for dairy and swine herds persons, farm equipment operators, and crop production technicians.

- 100% job placement for several years

## Degrees and Certificates

Farm Operation and Management  
 AAS Degree - 72 Credits
