[ridgewater.edu/pseo](http://ridgewater.edu/pseo)

Hutchinson and Willmar Campuses  
and Online

PSEO allows eligible high school and home school students to take college courses on campus or online - without paying tuition. Qualifying students can take liberal arts/general education courses or certain technical courses, if space is available.

## Liberal Arts & Sciences

PSEO students in liberal arts courses experience a rigorous education designed to transfer.

- You can earn up to two years of your four-year degree.
- You earn college credit without having to take an Advanced Placement test.
- You may be able to take courses for your planned major.

## Technical Education

PSEO students enrolling in technical coursework can pursue their interest in many hands-on fields and trades.

- You can graduate from high school while earning technical credits, giving you a head start on your degree and career.
- Students applying for a technical PSEO experience will be accepted after October 1 for spring semester and after February 1 for fall semester based on space availability.
- Hands-on learners excel in technical education.
- Not all technical programs are PSEO eligible.

## Online Flexibility

In addition to face-to-face courses, you can take online courses and enjoy convenience and flexibility.

Online options include synchronous, asynchronous and blended/hybrid courses.

- Synchronous - online classes with set times
- Asynchronous - online classes with no set times for maximum flexibility
- Blended/hybrid - scheduled in-person classes and online learning
- Choose from a wide variety of liberal arts and technical courses each semester
- Connect with a variety of students since online courses are open to all college students

## Admissions

We accept applications from qualified high school seniors, juniors, sophomores and home school students. PSEO students earn both high school and college credit for their college courses. Students should work with both their high school counselor and a college academic advisor to plan an experience that's right for student success.
