## About the Program

When a 9-1-1 call alerts authorities of an emergency, paramedics are often the first at the scene. Whether it is an automobile accident, a medical emergency, fire, or some other disaster, the paramedic is responsible to assess a patient's condition, give emergency treatment, and transport to the hospital. Often, paramedics are the difference between life and death.

The Paramedic program focuses on assessment of a patient's condition and treatment.

As a potential student, you should enjoy working with people and have a desire for challenging work in a variety of conditions. You should also have the ability to make quick decisions and think on your feet.

Learn to use various emergency equipment:

- Stretchers and splints
- Advanced airway equipment
- IV therapy and medications
- Cardiac monitors

The Ridgewater College Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs ([www.caahep.org](http://www.caahep.org)) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).

## Program Distinctions

- Blended online format includes online curriculum, hands-on lab instruction and field/clinical experiences with regional hospitals and ambulances through strong professional partnerships
- Fast-paced program designed to finish in one year
- 95-100% job placement for several years

## Admissions Criteria

You must be a current EMT-B or higher, have at least 100 hours of EMT experience, and have a current Healthcare Professional CPR card to be accepted to the program.

## Career Info

Career opportunities include:

- Private ambulance companies
- City health agencies and hospitals
- Industry
- Fire and law enforcement agencies
- Military

Professional paramedics are replacing volunteers, the population is aging, and urban populations are growing. So job opportunities for paramedics are increasing rapidly, about 13% growth for paramedics and EMTs.
