About the Program

What an exciting time to become a web developer! Society increasingly depends on web developers to create positive experiences in e-commerce, mobile platforms, online learning, and teleworking. Maximize your creativity and problem-solving skills in our Web Developer program as you prepare for a rewarding, in-demand career.

Ridgewater students can focus on our design path, the programming path or both. Design covers design fundamentals such as typography and color, industry-standard graphic software, photography and video. The programming path features in-depth study on additional programming languages or database interaction.

You will develop Internet business applications and use leading-edge technologies to master the following:

- HTML and CSS
- JavaScript
- PHP
- User experience design
- Networking concepts
- Technology implementation across different platforms

Coursework focuses on usability, functionality, navigation, digital assets, design concepts and network management. You will spend a
