Nondestructive Testing Makes the World Safer

If you enjoy scientific challenges and working with your hands, maybe a career in Nondestructive Testing is for you! Learn a variety of safety inspection methods such as computerized radiography, eddy current, phased array, and more.

Graduates are key inspectors in aerospace, transportation, construction, and power industries on everything from products and parts to theme park rides! Train for in-demand, high-paying careers in just two years.

TOPICS

- Meet faculty during a program overview
- Learn about the unique, hands-on learning model
- Explore the nation's first nondestructive testing lab
- Discover the variety of career options in this field, near and far
- Meet Admissions staff and learn about the application process
