INVESTIGATIVE TECHNIQUES

Andrea Rooney, MS (she/her)

Investigation Specialist & Lead Deputy Title IX Coordinator
St. Cloud State University

Maegen Sinclair Usher, JD (she/her)

Investigation Specialist & Deputy Title IX Coordinator
Metro State University

INVESTIGATION PLAN

- Scope of Investigation
 - What are the allegations?
 - 1B.1, 1B.3, RWP, Code of conduct, etc.
 - What are sub-elements
 - Who are the involved parties?
 - Multiple respondents; multiple complainants – may consider splitting
 - Large witness pool
 - Do the allegations arise out of same set of facts
 - If not, consider splitting or referring non 1B.1/1B.3 matters
 - Why is scope important?
 - Prevents Scope creep i.e., getting lost/sidetracked
 - Can help structure interviews

WHO TO INTERVIEW

- Complainant & Respondent
- Witnesses
 - Those present in incident(s)
 - Outcry witnesses – administrators, friends, family complainant/respondent shared with about incident(s)
 - Those involved in documenting incident or process/response - security, other administrators, etc.
 - Focus on witnesses that have knowledge of the incident rather than the character of the individual
- Document interview decisions
 - Who is doing the interview and why
 - Why was someone not interviewed

SCHEDULING INTERVIEWS

- Order of interviews
 - Strategy – different order for different situations
- Timing
 - Set aside enough time: prep, interview, notes/reflection time
 - Consider past interactions with party
 - Consult interview outline
- Flexibility – timing and location
 - Provide location options but be sensitive to different needs.
 - i.e., - Zoom requires technology, internet, etc.
- Accommodations
 - Know who/what departments to partner

OUTLINE INTERVIEW QUESTIONS

- Interview structure consistent for all parties
 - "speeches" - overview of meeting, about role/office, policy, procedure, flowchart; advisory notice, waiver of union, privacy of interview' recording/note taking timing of interview
 - Background – name, title/year, start date, major, involvement in extracurriculars/committees, explanation of role, where they live on campus
 - Resources
 - Next steps
 - Reminder about retaliation

DETERMINE GOALS OF QUESTIONS

- Who, what, where, when, why, how
- Intake meeting vs. Investigatory interview
- Refine scope
- What information are you missing or have questions
 - Read through reports/complaints and note any questions
- Policy elements
 - Policy element handout

HOW TO STRUCTURE QUESTIONS

- Start with broad/open ended questions
- Allow to tell their story/experience however they choose
 - Where they start/end their story and what they emphasize can be very telling and important for you to have.
- Clarifying questions
 - Funnel approach
- Additional questions/things left unanswered
- Closing questions
 - Is there anything else you think I should know?
 - Anything I didn't ask that you thought I would ask about?
 - Is there anyone that you think I should talk to? Why?

INTERVIEW QUESTIONS for all

- Interview questions for all parties
 - Allow them chance to share their story/experience
 - "Tell me about your experience" - "this is your opportunity to respond to allegations" - "do you know why I asked to meet with you"
 - Prepare what information willing/able to share
 - Ask the who/what/where/when/how questions
 - Policy elements
 - Effect/impact

INTERVIEW QUESTIONS CONTINUED...

- Interviewee specific questions
 - Respondent – make sure to review allegations before questions
 - Make sure the respondent has an opportunity to speak to each individual allegation
 - Complainant – clarify protected class and identity
 - What they observed/their perspective of incident(s)
 - Inconsistencies with other parties/witnesses
 - Evidence specific questions – what they have, might have seen/been part of, etc.

CONDUCTING INTERVIEWS

EACH INTERVIEW MIGHT LOOK DIFFERENT

- Emotion – crying, anger, indifference, being conflicted, trauma, etc.
- Timing – short answers, decisions to make, communication styles, etc.
- How you ask questions
- Credibility concerns
- Effort needed to structure interview – redirect, diffuse conversation, etc.

MAINTAINING CONTROL OF INTERVIEW

- Safety – Think about how you have arranged the room, security, etc.
- Union reps/ support persons/parents/lawyers
 - Be clear about what their role is [I.e., don't ask interview questions and don't answer questions) from the very beginning (include in letters; share in speech)
 - Communicate to party and support person (if appropriate)
 - Allow for time and space for them to meet away from investigator (separate room; breakout room, etc.)
 - Give reminders/warnings if necessary
- Don't be afraid to end a meeting
- Difference between control and parties not cooperating

TRAUMA INFORMED TECHNIQUES

- Forming questions in a way that does not assign responsibility, blame, or guilt
- Creating safe and comfortable interview environment/setting
- Understand the effects trauma can have
- Check your bias especially when assessing credibility
- Ask questions that speak to the senses

PROVIDING EMPATHY AND VALIDATION

- Focus on treating the individual as a whole person.
- As an investigator, remain neutral
- Practice using sample language that validates a person's experience but remains impartial
- Remember allow space for decisions

ADDITIONAL CONSIDERATIONS

ACTIVE VS. INACTIVE INVESTIGATION

- Active stage of investigation:
 - investigation planning
 - investigatory interviews
 - collecting supporting documentation
- Inactive stage of investigation:
 - reviewing information
 - conducting additional follow up
 - writing the report

REPORT WRITING CONSIDERATIONS

- Technical vs. Emotional writing
- Analysis section
 - Policy language
 - Credibility information
 - Disputed and undisputed
 - Applying facts to policy
 - No determinations (DM's job)
- Exhibits – label exhibits (numbers or letters)

NOTE TAKING

- Handwritten, typed, Zoom transcript
- Some of this is a personal preference – be consistent
- Have outline of meeting/interview
- Consider a notetaker for support
- Model notes after investigation report
- Make notations where you still have questions for follow up or for other parties

COMMON CHALLENGES & TIPS

- Common challenges
 - parties talk fast or talk in circles/share repetitive information
 - interviews are long
 - prioritizing typing notes after interview
 - Self-care
- Tips
 - type notes/update as soon as possible after interview
 - document thoughts for follow up
 - have a notetaker
 - encourage all to submit a written statement

RECORDING INTERVIEWS

- Allows the investigator to focus on content/information and being present during the interview
- Recordings can ensure that all data and information is accurate.
 - Provides for use of direct quotes
 - Allows for investigator to review/reflect to determine what gaps still exist
 - Provides investigator an opportunity to refine investigation skills
- Recordings can be taken in multiple ways
 - Zoom, teams, handheld, etc.
- Record ALL the interview - including opening information, data privacy review (ask for verbal acceptance), all "housekeeping" information

RECORDING INTERVIEW CONTINUED...

- There are additional nuances of recording that are different from standard interviewing.
 - Open recording stating date, time, and introduction of parties (including spelling of names). End recording with time.
 - Audio recordings do not pick up on non-verbal (head nods, etc.)
 - prepare parties at beginning of interview and clarify during interview if needed.
- Develop a plan for your recording - send for transcription, etc.
 - This provides a typed/hard copy of the interview.
- Transcription review
 - Determine if you want to add this as a part of your process
 - Who can attend to complete the review

RECORDING CONSIDERATIONS

- Contracts for transcription
 - REV.com, other transcription services.
- Access to transcripts
 - Who, when, why
- Storage of recordings and transcripts
- Data retention policies

Office of General Counsel

Overview of Data Practices

For Minnesota State Investigators System Procedures 1.B.1.1

Daniel McCabe
Assistant General Counsel

MINNESOTA STATE

Data Practices Laws

- Minnesota Government Data Practices Act (MGDPA)
- Family Educational Rights and Privacy Act (FERPA)
- HIPAA, GDPR, etc.
- Investigation Records are Government Data under MGDPA (Sometimes FERPA).

Public Data

- Default rule under MGDPA – Government Data is Public
- Available to inspect upon request
- Examples include contracts, invoices, policies, and most business correspondence

Private Data

- Certain data sets are private under the MGDPA/FERPA
- Private means accessible only:
 - to data subject
 - for work related purposes
 - to third parties (who are not the data requestor themselves) if:
 - Subject gives consent or;
 - Appropriate legal authority, such as a court order

Personnel Data

- Section 13.43 sets forth what is Public Data on Employees
 - Only data listed in 13.43 is public data
 - The list includes salary, job title, job description, name, office contact information, existence and status of complaints, etc.
 - If an employee asks for data on themselves, they receive that data whether it is public or private in most circumstances
 - **Otherwise, Personnel Data is Private**

Student Data

- "Educational Data" means (almost) all data relating to a student.
- Educational Data is generally private data. This means that it cannot be disclosed without the student's written consent unless an exception applies.
- Educational Data remains private after a student is no longer enrolled due to graduation, transfer, etc.
- Educational Data does not include data collected after a student leaves the College (e.g. alumni data).
- "Directory Data" is public, unless a student asks that it remain private.

Who is the Data Subject?

- The Respondent is the subject of the investigation.
- Data from a witness statement can be about the speaker, about whom they are speaking about, or both.
- It can even be data on you, the investigator.
- We must balance the interests of the data subjects.

The Complaint

- Existence and status of the complaints are public.
- Statuses include Open, Under Investigation, and Closed.
- We notify a respondent about the existence of an investigation and inform them of the charges.
- The nature of the complaint is not public.

Active Investigation Data

- You may share redacted copies of the respondent's statement with the respondent.
- You may share redacted copies of the complainant's statement and the complaint with the complainant.
- May share with other school officials who have legitimate business "need-to-know" about specific information.
- May NOT share with third parties (including union reps) unless
 - Specifically legally authorized.
 - Always seek assistance before disclosing!

After Investigation

- If no discipline, the respondent does not receive anything other than redacted statement.
- If discipline, the complainant and respondent receive adequate data to make an appeal.
- We redact witness data to maintain confidentiality and prevent harassment.

Employee Discipline

- If employee retains appeal or grievance rights, discipline is not final.
- If there is a no contact order, we can share data for enforcement reasons.
- 1B3 complainants are entitled to certain remedial action information.
- Public employee (usually only presidents and chancellor) investigation data becomes public once the investigation is final.
- Once employee discipline is final (grievance/appeal closed), the disciplinary letter and data supporting the decision become public.

Student Discipline

- Student discipline is private data.
- The only exception is for crimes of violence:
 - If 1B.1.1 investigation includes a charge of assault, intimidation or forcible sex offense (not a complete list) certain information becomes available to:
 - The victim regardless of the result,
 - The public upon request if the charge is sustained.
 - Consultation is required before releasing student discipline information.

Avoiding Mistakes

- Don't disclose private data to others during investigation interviews or correspondence;
- Employee administrative leave during investigation is not "suspension"
 - Implies discipline
- Refer media requests to campus communications or public affairs.
- Get consent for others to be present during interview.
- Don't permit unauthorized viewing of paper or electronic records;
- Label report as "Private;"
- Store investigation records securely;
- Follow IT procedures about maintaining electronic security when storing or transmitting data; watch that laptop! (device/phone/etc.)
- Dispose of not public data securely;
- Use email carefully.

Data Breaches

The MGDPA requires notice to affected individuals of a breach of security (unauthorized access) for

- any private or confidential data (not just SSN or financial information)
- in any medium (not just computerized).

E.g., lost or stolen laptop containing student program data.

Contact your supervisor or campus DPCO if you believe you have a possible security breach situation.

- OGC will assist in determining whether notice is required, how it must be done and other details.

Data Collection: Tennessean Warning Notice

- The reason government is collecting the data,
- How government plans to use the data,
- Whether the person is legally required to provide the data or may refuse to do so,
- Consequences if the person provides the data,
- Consequences if the person does not provide the data, and

Data Collection (continued)

- The identities of people and entities that have access to the data by law. (For example, all notices should include that data may be shared upon court order or provided to the state or legislative auditor.
- Note regarding private data on minors: Entities must provide minors with notice that they have the right to request that parental access to private data be denied. Entities may consider including this notice in the Tennessean Warning notice when collecting the data (See Minnesota Rules 1205.0500).

Consequences of Violations

- A violation of the Data Practices Act could result in:
 - Court order for corrective action
 - Damages paid to the data subject
 - A violation of FERPA could also result in sanctions by the Department of Education
 - Failure to comply with job requirements
 - Reputational damage to the College
